MAKING SUPERHEROES, ONE PERSON AT A TIME!

ABOUT SUPERHERO ACADEMY

Superhero Academy is a one-stop learning centre located in Tropicana Aman, serving students in the area of Bandar Rimbayu, Eco Sanctuary, Bandar Saujana Putra, Kota Kemuning and the surrounding areas.

It is headed by our Principal, Mr. Timothy Joshua Zarsadias, a passionate educator who, with more than a decade of teaching experience, carries with him a Diploma in TESOL (Canada) and a Bachelor's Degree in Education (Hons), majoring in Language & Literature. He strives to instil into students with a love for learning by making learning fun and engaging which is evident from the name of the academy, right down to the values and methodologies which is brought into the classroom.

His team of qualified, like-minded and passionate teachers equip the academy with more than 60 years of collective teaching experience. Together, they spare no effort in inculcating students with good morals, good etiquettes and good discipline while being responsible and independent human beings so that they may be valuable members and contribute to the society they belong in.

Ethos

Making superheroes, one person at a time.

We believe that every individual has the potential to be great. Being great doesn't mean doing great things, but instead doing things no matter how small, while giving their best. At Superhero Academy, we focus on small groups in order to be able to give them the best, and we want our students to live by this ethos and to put in their best effort in everything that they do.

Mission

To revolutionise education.

Superhero Academy was born with the intent to make children fall in love with learning by providing the avenue, making learning fun through our "SUPER lesson" structure, and by building character.

These will help to contribute towards instilling students with the drive to continue learning even into their adulthood as we believe that learning is a lifelong journey.

Yoga

PREP YEAR PROGRAMME

This course is aimed to help students aged 5-6 to improve their reading, writing and numeracy skills in English, Mandarin and Bahasa Malaysia to prepare them for Year 1 accordingly.

A safe and conducive classroom of 8 students only

YEAR ONE TO YEAR SIX

INDIVIDUALISED DEVELOPMENT

Classes are limited to only 8 students per class as research has shown it to be the optimum teacher to student ratio. Superhero Parents report that progress is noticeable by leaps and bounds within just the first few months!

THE CURRICULUM

Based on the Cambridge curriculum, we place emphasis on the common core subjects as well as elective subjects to provide a holistic development as we strive to be a one-stop learning centre, focusing on each child's growth - academic, character, as well as their personal development.

The curriculum also emphasises on experiential learning which allows them to learn through hands-on activities in all subjects including geography, history, science, art, drama, music, public speaking, creative writing and more.

We also practice mindfulness through journaling, quiet reading, feelings check-in, and meditation.

OUR APPROACH

Using a blend of Montessori and conventional methods, we teach children about the world around them through experiential learning and at the same time, place emphasis on academic subjects. Our interesting elective subjects included in the curriculum provides children the platform to discover and hone their talents, through a well-rounded, holistic education.

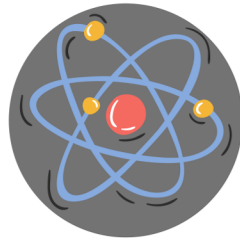

WHAT HAPPENS AFTER YEAR 6?

Students after Year 6 will progress to Year 7 (Lower Secondary) right up until they graduate in Year 11. Plans are already in progress to open a new space for secondary level students.

ENROLMENT PROCESS

Book A Visit

Contact us and book a visit to meet our Principal and teachers. You can even request to send your child for a 1-week trial!

Entry Assessment

Once you've decided that you would like to enrol your child in our academy, we will schedule an entry assessment with your child. The assessment will test their English and Maths proficiency in addition to a session with our resident Educational Psychologist to ensure their placement will suit his/her needs. This assessment may also be done during the 1-week trial if you have opted for it.

Interview

Parents will be given a review of the assessments done during an interview with the Principal and an Educational Psychologist. The school reserves the right to assign priorities for admission or refuse admission for any reason deemed fit. Where places are insufficient, applicants remain on the waiting list.

Offer

Based on the outcome of the interview and availability, the school will offer your child a place in the school via a Letter of Offer. The type of placement for your child is under the absolute discretion of the school, after taking into consideration various circumstances including their academic and behavioural progress.

You will need to accept the offer by completing the necessary forms and payment of all required fees as set out in the Fee Structure within seven (7) days of the Letter of Offer to confirm your child's enrolment in our school.

Admission

Upon receiving payment which confirms the acceptance of offer, you will be contacted about your child's first day of school.
